

Maps Quickstart V2 Server

Document Version 301

PRECISION
AGRONOMICS AUSTRALIA

www.i4m.net.au

admin@precisionag.com.au

Start

- You need shape files
- i4M does not create shape files
- Your advisor can send shape files to you, or to your i4M cloud

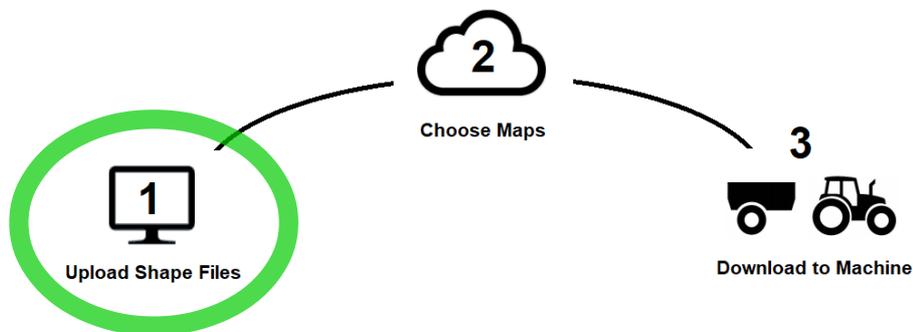

Units

- kg/ha - for rate maps (not tons)
- mm - for depth maps

Details

- ESRI format, WGS84 reference
- Maximum number of polygons 300
- Avoid Gridded data
- Dissolve polygons to improve the map

Step 1

Upload Shape Files

- Login to i4m.net.au
- Highlight all the files at once
- Drag and drop into i4M

Moes Tavern .shp
Moes Tavern .shx
Moes Tavern .dbf

Step 2

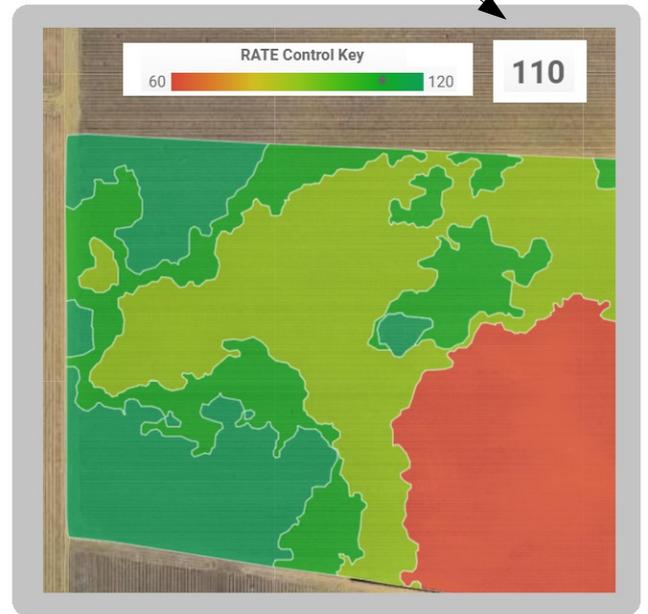

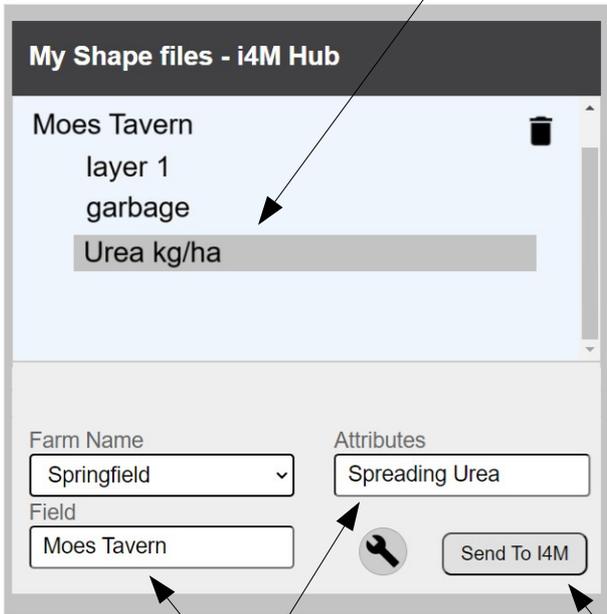

Prepare Maps

- Choose maps for the tablet

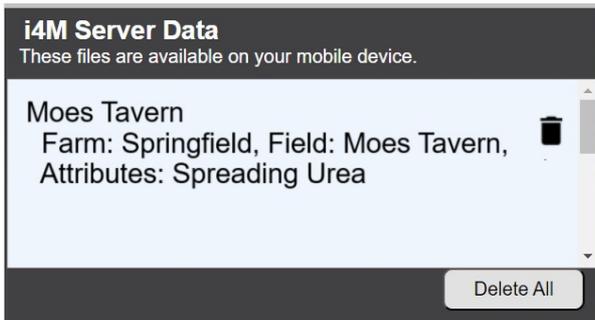

Shape files have layers
Choose the layer you want

Move mouse over map
Check the rates

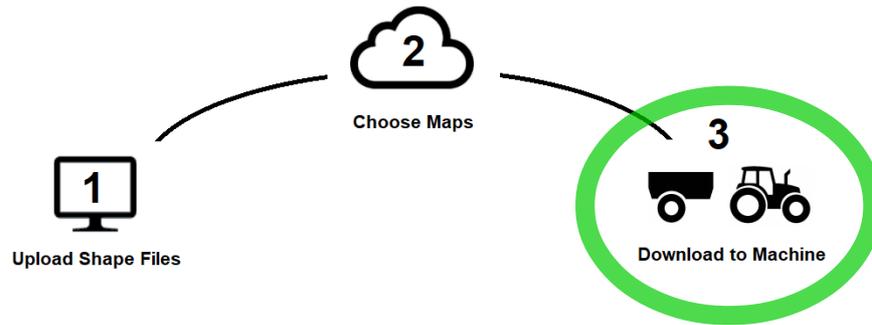

Add info for the tractor driver

Send to the Tablet

The tablet will download all maps in this list

Step 3

Download Maps

- On the tablet app, in the Maps menu, login using your i4M details
- In the Maps menu, tap Download
- All the maps from Step2 will download
- All the old maps on the tablet will be removed
